- **Certifications** ReactJS Developer (Internship), ReactJS (Internshala), Web Development (Coursera)

EXPERIENCE

Associate Digital Consultant – React Native, JavaScript, React, Redux

Jan 2025

STATUSNEO TECHNOLOGY CONSULTING PRIVATE LTD, GURUGRAM

- Contributed to the development of the IndiGo app Home Screen by implementing intuitive UI components and integrating them with backend services using Redux slices for efficient data fetching, state management, and error handling.
- Improved user experience and interface fluidity by implementing smooth animations, transitions, and micro-interactions using React Native Reanimated.
- Designed and optimized Cloud Firestore data structures to ensure scalable, efficient data storage and retrieval across user features.
- Implemented secure authentication and user session handling using Firebase Authentication.
- Configured and maintained version-based feature control using Firebase Remote Config, enabling dynamic rollout of features and A/B testing without requiring app redeployment.

ReactJS Developer Intern - ReactJS, JavaScript, HTML, CSS, NodeJS

July 2024 – Oct 2024

Talentrise Technokrate PVT. LTD., Nagpur

- **Architected** an intuitive website layout that prioritized smooth navigation, elevating user experience and engagement.
- **Spearheaded** the development of the entire frontend, skillfully integrating code contributions from team members to create a cohesive and responsive web application.
- **Championed** a user-first design philosophy, optimizing site usability with a well-organized and efficient structure that captivated and retained users.

PROJECTS

IndiGo Customer Facing APP - React Native, JavaScript, Redux, Firebase Remote Config

Jan 2025

- Worked on the Home Screen of the IndiGo mobile app — implemented UI components and wired them to remote APIs using Redux slices for state management, efficient data fetching, caching and error handling.
- Enhanced user experience with performant animations and micro-interactions using React Native Reanimated, including feature transitions and interactive card/row animations.

Online Hotel Booking web application ReactJS, NodeJS, Tailwind CSS [Frontend]

Jun 2024 – July 2024

- **Engaging Frontend:** The online booking app offers an intuitive and visually appealing interface using HTML, CSS, and JavaScript for seamless navigation and a delightful experience.
- **Responsive Design:** Featuring responsive layouts and interactive elements, the app allows users to easily browse hotels and make purchases on any device.
